A recent survey shows that towns have spent an average of **$40,500** dealing with unflushable items in sewer systems.

The replacement cost of a typical residential leach field is **$6,000-15,000**.
What’s FLUSHABLE?

The DO NOT FLUSH List:

- Diapers
- Cigarettes
- Paper Towels
- Cotton Swabs
- Feminine Hygiene Products
- Toys
- Dental Floss
- Facial Tissues
- Wipes

A toddler will tell you that everything is flushable... but what you think is flushable could be costing you money!

Product labels can be misleading. Some items that claim to be “flushable” can clog sewer and septic systems and can end up costing you a pretty penny.

“Flushable” does NOT mean it is SAFE for your septic system or sewer.

“Disposable” items ARE NOT flushable and should be placed in the trash.

The bottom line:
ONLY

Human waste and toilet paper ARE FLUSHABLE
